(Former name or former address, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Units, each consisting of one share of common stock and one-fifth of one redeemable warrant	GFOR.U	The New York Stock Exchange
Common stock, par value \$0.0001 per share	GFOR	The New York Stock Exchange
Warrants, each whole warrant exercisable for one share of common stock at an exercise price of \$11.50 per share	GFOR WS	The New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input checked="" type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>
		Emerging growth company	<input checked="" type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of May 16, 2022, 21,452,875 shares of common stock, par value \$0.0001, were issued and outstanding.

**GRAF ACQUISITION CORP. IV**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**Note 1—Description of Organization and Business Operations**

Graf Acquisition Corp. IV (the “Company”) is a newly organized blank check company incorporated in Delaware and formed for the purpose of effecting into a merger, share exchange, asset acquisition, stock purchase, recapitalization, reorganization or other similar business combination with one or more businesses or entities (the “Business Combination”).

As of March 31, 2022, the Company had not yet commenced operations. All activity for the period from January 28, 2021 (inception) through March 31, 2022, relates to the Company’s formation and the initial public offering (the “Initial Public Offering”), which is described below, and, subsequent to the Initial Public Offering, identifying a target company for a Business Combination. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company generates non-operating income in the form of interest income on the proceeds derived from the Initial Public Offering.

The Company’s sponsor is Graf Acquisition Partners IV LLC, a Delaware limited liability company (the “Sponsor”). The registration statement for the Company’s Initial Public Offering was declared effective on May 20, 2021. On May 25, 2021, the Company consummated its Initial Public Offering of 15,000,000 units (the “Units” and, with respect to the common stock included in the Units being offered, the “Public Shares”), at \$10.00 per Unit, generating gross proceeds of \$150.0 million, and incurring offering costs of approximately \$8.8 million, of which approximately \$5.3 million was for deferred underwriting commissions (see Note 3). The Company granted the underwriter a 45-day option to purchase up to an additional 2,250,000 Units at the Initial Public Offering price to cover over-allotments. On June 2, 2021, the underwriters partially exercised the over-allotment option and purchased 2,161,500 additional Units (the “Additional Units”), generating gross proceeds of approximately \$21.6 million (the “Over-Allotment”). The Company incurred additional offering costs of approximately \$1.2 million in connection with the Over-Allotment (of which approximately \$757,000 was for deferred underwriting fees).

Simultaneously with the closing of the Initial Public Offering, the Company consummated the private placement (“Private Placement”) of 4,433,333 warrants (each, a “Private Placement Warrant” and collectively, the “Private Placement Warrants”) at a price of \$1.50 per Private Placement Warrant to the Sponsor, generating proceeds of approximately \$6.7 million (see Note 4). Simultaneously with the closing of the Over-Allotment on June 2, 2021, the Company consummated the second closing of the Private Placement, resulting in the purchase of an aggregate of an additional 288,200 Private Placement Warrants at \$1.50 per Private Placement Warrant (the “Additional Private Placement Warrants”), generating additional gross proceeds of approximately \$432,000.

Upon the closing of the Initial Public Offering, Over-Allotment, and Private Placement, \$171.6 million (\$10.00 per Unit) of the net proceeds of the sale of the Units in the Initial Public Offering, Over-Allotment and of the Private Placement Warrants in the Private Placement were placed in a trust account (“Trust Account”) in the United States maintained by Continental Stock Transfer & Trust Company, as trustee, and has been invested only in U.S. “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act of 1940, as amended, or the Investment Company Act, having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account as described below.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of its Initial Public Offering and the sale of Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. The Company’s initial Business Combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in the Trust Account (net of amounts disbursed to management for working capital purposes, if permitted, and excluding the amount of any deferred underwriting commissions) at the time the Company signs a definitive agreement in connection with the initial Business Combination. However, the Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act.

The Company will provide the holders of Public Shares (the “Public Stockholders”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a stockholder meeting called

**GRAF ACQUISITION CORP. IV**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The Public Stockholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then in the Trust Account (initially at \$10.00 per share, plus any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay its tax obligations). The per-share amount to be distributed to Public Stockholders who redeem their Public Shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriters (as discussed in Note 5). These Public Shares were recorded at a redemption value and classified as temporary equity, in accordance with the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 480, “Distinguishing Liabilities from Equity” (“ASC 480”). In such case, the Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 upon such consummation of a Business Combination and a majority of the shares voted are voted in favor of the Business Combination. If a stockholder vote is not required by law and the Company does not decide to hold a stockholder vote for business or other legal reasons, the Company will, pursuant to its Amended and Restated Certificate of Incorporation (the “Charter”), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission (the “SEC”), and file tender offer documents with the SEC prior to completing a Business Combination. If, however, a stockholder approval of the transactions is required by law, or the Company decides to obtain stockholder approval for business or legal reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. Additionally, each Public Stockholder may elect to redeem their Public Shares irrespective of whether they vote for or against the proposed transaction. If the Company seeks stockholder approval in connection with a Business Combination, the holders of the Founder Shares prior to this Initial Public Offering (the “Initial Stockholders”) agreed to vote their Founder Shares (as defined in Note 4) and any Public Shares purchased during or after the Initial Public Offering in favor of a Business Combination. In addition, the Initial Stockholders agreed to waive their redemption rights with respect to their Founder Shares and Public Shares in connection with the completion of a Business Combination. In addition, the Company agreed not to enter into a definitive agreement regarding an initial Business Combination without the prior consent of the Sponsor.

Notwithstanding the foregoing, the Charter provides that a Public Stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), will be restricted from redeeming its shares with respect to more than an aggregate of 20% or more of the shares of common stock sold in the Initial Public Offering, without the prior consent of the Company.

The Company’s Sponsor, executive officers, and directors have agreed not to propose an amendment to the Charter that would affect the substance or timing of the Company’s obligation to provide for the redemption of its Public Shares in connection with a Business Combination or to redeem 100% of its Public Shares if the Company does not complete a Business Combination, unless the Company provides the Public Stockholders with the opportunity to redeem their shares of common stock in conjunction with any such amendment.

If a Business Combination has not been consummated within 24 months from the closing of the Initial Public Offering, or May 25, 2023 (the “Combination Period”), the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest (which interest shall be net of taxes payable and up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish Public Stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining stockholders and the board of directors, dissolve and liquidate, subject in each case to the Company’s obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

The Initial Stockholders agreed to waive their liquidation rights with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the Initial Stockholders should acquire Public Shares in or after the Initial Public Offering, they will be entitled to liquidating distributions from the Trust Account with respect to such Public Shares if the Company fails to complete a Business Combination within the Combination Period. The underwriters agreed to waive their rights to their deferred underwriting commission (see Note 5) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the funds held in the Trust

**GRAF ACQUISITION CORP. IV**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

Account that will be available to fund the redemption of the Company's Public Shares. In the event of such distribution, it is possible that the per share value of the residual assets remaining available for distribution (including Trust Account assets) will be only \$10.00 per share initially held in the Trust Account.

The Company will seek to have all third parties (except the Company's independent registered public accounting firm) and any prospective target businesses enter into valid and enforceable agreements with the Company waiving any right, title, interest or claim of any kind they may have in or to any monies held in the Trust Account. Nevertheless, there is no guarantee that vendors, service providers and prospective target businesses will execute such agreements. The Company's insiders agreed that they will be jointly and severally liable to the Company if and to the extent any claims by a vendor for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below \$10.00 per Public Share, except as to any claims by a third party who executed an agreement with the Company waiving any right, title, interest or claim of any kind they may have in or to any monies held in the Trust Account and except as to any claims under the Company's indemnity of the underwriters of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act. However, the Company's insiders may not be able to satisfy their indemnification obligations. Moreover, the Company's insiders will not be liable to the Public Stockholders and instead will only have liability to the Company.

***Liquidity and Going Concern***

As of March 31, 2022, the Company had approximately \$1.4 million in its operating bank account and working capital deficit of approximately \$90,000.

The Company's liquidity needs through March 31, 2022 were satisfied through a payment of \$25,000 from the Sponsor to purchase the Founder Shares, the loan of approximately \$67,000 from the Sponsor under the Note (as defined in Note 4 to the condensed financial statements), and the proceeds from the consummation of the Private Placement not held in the Trust Account. The Company repaid the Note in full on May 26, 2021. In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors, may, but are not obligated to, provide Working Capital Loans (as defined in Note 4 to the condensed financial statements). As of March 31, 2022, and December 31, 2021, there were no amounts outstanding under any Working Capital Loans.

In connection with the Company's assessment of going concern considerations in accordance with FASB Accounting Standards Update ("ASU") 2014-15, "Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern," management has determined that the Company may not be able to meet its obligations as they become due within one year after the date that the condensed financial statements are available to be issued. As such, management has determined that the liquidity condition raises substantial doubt about the Company's ability to continue as a going concern. As of March 31, 2022, and December 31, 2021, no adjustments have been made to the carrying amounts of assets or liabilities.

**Note 2—Basis of Presentation and Summary of Significant Accounting Policies**

***Basis of Presentation***

The accompanying unaudited condensed financial statements are presented in U.S. dollars in conformity with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X and pursuant to the rules and regulations of the SEC. Accordingly, certain disclosures included in the annual financial statements have been condensed or omitted from these condensed financial statements as they are not required for interim financial statements under GAAP and the rules of the SEC. In the opinion of management, the unaudited condensed financial statements reflect all adjustments, which include only normal recurring adjustments necessary for the fair statement of the balances and results for the period presented. Operating results for the three months ended March 31, 2022, and since inception are not necessarily indicative of the results that may be expected through December 31, 2022, or any future period.

The accompanying unaudited condensed financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Annual Report on Form 10-K filed by the Company with the SEC on March 31, 2022.

**GRAF ACQUISITION CORP. IV**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

***Emerging Growth Company***

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that an emerging growth company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period, which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company’s condensed financial statements with another public company that is neither an emerging growth company nor an emerging growth company that has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

***Use of Estimates***

The preparation of condensed financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed financial statements and the reported amounts of income and expenses during the reporting period. Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the condensed financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

***Cash and Cash Equivalents***

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company had no cash equivalents as of March 31, 2022, and December 31, 2021.

***Investments Held in the Trust Account***

The Company’s portfolio of investments is comprised of U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 185 days or less, or investments in money market funds that invest in U.S. government securities and generally have a readily determinable fair value, or a combination thereof. When the Company’s investments held in the Trust Account are comprised of U.S. government securities, the investments are classified as trading securities. Gains and losses resulting from the change in fair value of these securities are included in income on investments held in the Trust Account in the accompanying condensed statements of operations. The estimated fair values of investments held in the Trust Account are determined using available market information.

***Concentration of Credit Risk***

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution, which, at times, may exceed the Federal Deposit Insurance Corporation coverage limit of \$250,000. As of March 31, 2022,

**GRAF ACQUISITION CORP. IV**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

and December 31, 2021, the Company had not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such accounts.

***Fair Value of Financial Instruments***

The fair value of the Company's assets and liabilities, which qualify as financial instruments under the FASB Topic ASC 820, "Fair Value Measurements," equals or approximates the carrying amounts represented in the condensed balance sheets, primarily due to their short-term nature, other than the derivative warrant liabilities.

***Fair Value Measurements***

Fair value is defined as the price that would be received for sale of an asset or paid for transfer of a liability, in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers consist of:

- Level 1, defined as observable inputs such as quoted prices (unadjusted) for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

In some circumstances, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In those instances, the fair value measurement is categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

***Derivative Warrant Liability***

The Company does not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. The Company will evaluate its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with FASB ASC Topic 815, "Derivatives and Hedging" ("ASC 815"). The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is re-assessed at the end of each reporting period.

The Private Placement Warrants are recognized as derivative liabilities in accordance with ASC 815. Accordingly, the Company recognizes the warrant instruments as liabilities at fair value and adjusts the carrying value of the instruments to fair value at each reporting period until they are exercised. The fair value of the Private Placement Warrants as of March 31, 2022, and December 31, 2021, is determined using Black-Scholes option pricing model. The determination of the fair value of the warrant liability may be subject to change as more current information becomes available, and accordingly, the actual results could differ significantly. Derivative warrant liabilities are classified as non-current liabilities as their liquidation is not reasonably expected to require the use of current assets or require the creation of current liabilities.

**GRAF ACQUISITION CORP. IV**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

***Offering Costs Associated with the Initial Public Offering***

Offering costs consist of legal, underwriting fees, accounting, and other costs incurred through the balance sheet date that were directly related to the Initial Public Offering. If the Initial Public Offering proved to be unsuccessful, these deferred costs, as well as additional expenses incurred, would be charged to operations. Offering costs are allocated to the separable financial instruments issued in the Initial Public Offering based on a relative fair value basis, compared to total proceeds received. Offering costs associated with derivative warrant liability will be expensed as incurred, presented as non-operating expenses in the condensed statements of operations. Offering costs associated with the Public Shares issued were charged to stockholders' equity upon the completion of the Initial Public Offering.

***Common Stock Subject to Possible Redemption***

The Company accounts for its common stock subject to possible redemption in accordance with the guidance in ASC 480. Common stock subject to mandatory redemption (if any) is classified as liability instruments and is measured at fair value. Conditionally redeemable common stock (including shares of common stock that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) is classified as temporary equity. At all other times, common stock is classified as stockholders' equity. The Company's common stock features certain redemption rights that is considered to be outside of the Company's control and subject to occurrence of uncertain future events. Accordingly, as of Initial Public Offering (including exercise of the over-allotment option), 17,161,500 shares of common stock subject to possible redemption at the redemption amount were presented at redemption value as temporary equity, outside of the stockholders' deficit section of the Company's condensed balance sheets.

Under ASC 480-10-S99, the Company has elected to recognize changes in the redemption value immediately as they occur and adjust the carrying value of the security to equal the redemption value at the end of the reporting period. This method would view the end of the reporting period as if it were also the redemption date of the security. Effective with the closing of the Initial Public Offering (including exercise of the over-allotment option), the Company recognized the accretion from initial book value to redemption amount, which resulted in charges against additional paid-in capital (to the extent available) and accumulated deficit.

***Income Taxes***

The Company follows the asset and liability method of accounting for income taxes under FASB ASC Topic 740, "Income Taxes" ("ASC 740"). Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. As of March 31, 2022, and December 31, 2021, the Company had full valuation allowance against the deferred tax assets.

ASC 740 prescribes a recognition threshold and a measurement attribute for the condensed financial statements recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. There were no unrecognized tax benefits as of March 31, 2022. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. No amounts were accrued for the payment of interest and penalties as of March 31, 2022. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

**GRAF ACQUISITION CORP. IV**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**Net Income (Loss) Per Share of Common Stock**

The Company complies with accounting and disclosure requirements of FASB ASC Topic 260, “Earnings Per Share.” Net income (loss) per common stock is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period.

The calculation of diluted net income (loss) per common stock does not consider the effect of the warrants issued in connection with the Initial Public Offering (including exercise of the over-allotment option) and the Private Placement to purchase an aggregate of 8,153,833 shares of common stock in the calculation of diluted income (loss) per common stock, because their exercise is contingent upon future events and their inclusion would be anti-dilutive under the treasury stock method. As a result, diluted net income (loss) per common stock is the same as basic net income (loss) per common stock for the three months ended March 31, 2022, and for the period from January 28, 2021 (inception) through March 31, 2021. Accretion associated with the redeemable common stock is excluded from earnings per share as the redemption value approximates fair value.

The following table reflects presents a reconciliation of the numerator and denominator used to compute basic and diluted net income (loss) per common stock:

	<b>For the Three Months Ended March 31, 2022</b>	<b>For the Period from January 28, 2021(inception) through March 31, 2021</b>
	<b>Common Stock</b>	<b>Common Stock</b>
Basic net income (loss) per common stock:		
<i>Numerator:</i>		
Allocation of net income (loss)	\$ 2,003,390	\$ (35,674)
<i>Denominator:</i>		
Basic weighted average common stock outstanding	21,451,875	2,797,619
Basic net income (loss) per common stock	<u>\$ 0.09</u>	<u>\$ (0.01)</u>

**Recent Accounting Pronouncements**

Management does not believe that any recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company’s condensed financial statements.

**Note 3—Initial Public Offering**

On May 25, 2021, the Company consummated its Initial Public Offering of 15,000,000 Units, at \$10.00 per Unit, generating gross proceeds of \$150.0 million, and incurring offering costs of approximately \$8.8 million, of which approximately \$5.3 million was for deferred underwriting commissions. The Company granted the underwriters a 45-day option to purchase up to 2,250,000 additional Units at the Initial Public Offering price less the underwriting discounts and commissions. On June 2, 2021, the underwriters partially exercised the over-allotment option and purchased 2,161,500 additional Units (the “Additional Units”), generating gross proceeds of approximately \$21.6 million (the “Over-Allotment”). The Company incurred additional offering costs of approximately \$1.2 million in connection with the Over-Allotment (of which approximately \$0.8 million was for deferred underwriting fees).

Each Unit consists of one share of common stock, and one-fifth of one redeemable warrant (“Public Warrant”). Each whole Warrant entitles the holder to purchase one share of common stock at a price of \$11.50 per share, subject to adjustment (see Note 8).

**GRAF ACQUISITION CORP. IV**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**Note 4—Related Party Transactions**

***Founder Shares***

On February 13, 2021, Graf Acquisition Partners LLC (“Graf LLC”) paid an aggregate of \$25,000 for certain offering costs on behalf of the Company in exchange for issuance of 4,312,500 shares of common stock (the “Founder Shares”). On April 2, 2021, Graf LLC transferred all of its Founder shares to the Sponsor. On April 8, 2021, the Sponsor transferred 20,000 Founder Shares to each of the Company’s independent directors, resulting in the Sponsor holding 4,252,500 Founder Shares. The holders of the Founder Shares agreed to forfeit up to an aggregate of 562,500 Founder Shares, on a pro rata basis, to the extent that the option to purchase additional units is not exercised in full by the underwriters, so that the Founder Shares will represent 20% of the Company’s issued and outstanding shares after the Initial Public Offering. The underwriters partially exercised their over-allotment option on June 2, 2021, and forfeited the remaining option; and, as a result, an aggregate of 22,125 Founder Shares were forfeited, resulting in 4,290,375 Founder Shares outstanding. On July 14, 2021, the Sponsor transferred 20,000 Founder Shares to Alexandra Lebenthal in connection with her appointment to the Company’s board of directors.

The Initial Stockholders agreed not to transfer, assign or sell any of their Founder Shares until the earlier to occur of: (A) one year after the completion of the initial Business Combination or (B) subsequent to the initial Business Combination, (x) if the last sale price of the common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 120 days after the initial Business Combination, or (y) the date on which the Company completes a liquidation, merger, capital stock exchange or other similar transaction that results in all of the stockholders having the right to exchange their shares of common stock for cash, securities or other property.

***Private Placement***

Simultaneously with the closing of the Initial Public Offering, the Company consummated the Private Placement of 4,433,333 Private Placement Warrants, at a price of \$1.50 per Private Placement Warrant to the Sponsor, generating proceeds of approximately \$6.7 million. Simultaneously with the closing of the Over-Allotment on June 2, 2021, the Company consummated the second closing of the Private Placement, resulting in the purchase of an aggregate of an additional 288,200 Private Placement Warrants at \$1.50 per Private Placement Warrant (the “Additional Private Placement Warrants”), generating additional gross proceeds of approximately \$0.4 million.

Each whole Private Placement Warrant entitles the holder thereof to purchase one common stock at an exercise price of \$11.50 per full share. A portion of the proceeds from the Private Placement Warrants was added to the proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the Private Placement Warrants will expire worthless. The Private Placement Warrants will be non-redeemable and exercisable on a cashless basis so long as they are held by the Sponsor or its permitted transferees (see Note 8).

***Related Party Loans***

On January 29, 2021, the Sponsor agreed to loan the Company up to \$150,000 to be used for the payment of costs related to the Initial Public Offering pursuant to a promissory note (the “Note”). The Note was non-interest bearing, unsecured and due upon the consummation of the Initial Public Offering. The Company had borrowed approximately \$70,000 under the Note. The Note was paid back in full on May 26, 2021. Subsequent to the repayment, the facility was no longer available to the Company.

In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor or any of the Company’s officers or directors may, but are not obligated to, loan the Company funds, from time to time or at any time, in whatever amount they deem reasonable in their sole discretion (the “Working Capital Loans”). Each loan would be evidenced by a promissory note. The notes would either be paid upon consummation of the initial Business Combination, without interest. In the event that the initial Business Combination does not close, the Company may use a portion of the working capital held outside the Trust Account to repay such loaned amounts but no proceeds from the Trust Account would be used for such repayment. Up

**GRAF ACQUISITION CORP. IV**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

to \$1,500,000 of such Working Capital Loans may be convertible into additional warrants at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the Private Placement Warrants. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. As of March 31, 2022, and December 31, 2021, the Company had no borrowings under the Working Capital Loans.

***Administrative Services Agreement***

On May 20, 2021, the Company entered into an agreement that provided that, commencing on the date that the Company's securities were first listed on the NYSE through the earlier of consummation of the initial Business Combination and the liquidation, the Company agreed to pay G-SPAC Management LLC, an affiliate of the Sponsor, \$15,000 per month for office space, utilities, secretarial, administrative and support services provided to the Company and members of the management team. For the three months ended March 31, 2022, and for the period from January 28, 2021 (inception) through March 31, 2021, the Company incurred expenses of approximately \$45,000 and \$0, respectively, under this agreement. As of March 31, 2022, and December 31, 2021, the Company had no outstanding for services in connection with such agreement on the accompanying condensed balance sheets.

In addition, the Sponsor, officers and directors, or any of their respective affiliates will be reimbursed for any out-of-pocket expenses incurred in connection with activities on the Company's behalf such as identifying potential target businesses and performing due diligence on suitable Business Combinations. The audit committee will review on a quarterly basis all payments that were made by the Company to the Sponsor, officers or directors, or their affiliates. Any such payments prior to an initial Business Combination will be made from funds held outside the Trust Account.

**Note 5—Commitments and Contingencies**

***Registration and Stockholder Rights***

The holders of the Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans (and any shares of common stock issuable upon the exercise of the Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans) were entitled to registration rights pursuant to a registration rights agreement signed upon the effective date of the Initial Public Offering. These holders were entitled to make up to three demands, excluding short form registration demands, that the Company registered such securities for sale under the Securities Act. In addition, these holders will have "piggy-back" registration rights to include their securities in other registration statements filed by the Company. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

***Underwriting Agreement***

The Company granted the underwriters a 45-day option from the date of the final prospectus relating to the Initial Public Offering to purchase up to 2,250,000 additional Units less the underwriting discounts and commissions. On June 2, 2021, the underwriters partially exercised the over-allotment option. On June 2, 2021, the Underwriters partially exercised the over-allotment option and purchased an additional 2,161,500 Units.

The underwriters were entitled to an underwriting discount of \$0.20 per unit, or \$3.4 million in the aggregate, paid upon the closing of the Initial Public Offering (\$3.0 million) and Over-Allotment (approximately \$0.4 million). In addition, \$0.35 per unit, or approximately \$6.0 million in the aggregate will be payable to the underwriters for deferred underwriting commissions (approximately \$5.25 million related to the Initial Public Offering and \$0.8 million related to the Over-Allotment). The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

**GRAF ACQUISITION CORP. IV**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**Risks and Uncertainties**

Management continues to evaluate the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of these condensed financial statements. The condensed financial statements do not include any adjustments that might result from the outcome of this uncertainty.

In February 2022, the Russian Federation and Belarus commenced a military action with the country of Ukraine. As a result of this action, various nations, including the United States, have instituted economic sanctions against the Russian Federation and Belarus. Further, the impact of this action and related sanctions on the world economy is not determinable as of the date of these condensed financial statements. The specific impact on the Company's financial condition, results of operations, and cash flows is also not determinable as of the date of these condensed financial statements.

**Note 6— Common Stock Subject to Possible Redemption**

The Company's common stock features certain redemption rights that are considered to be outside of the Company's control and subject to the occurrence of future events. The Company is authorized to issue 400,000,000 shares of common stock with a par value of \$0.0001 per share. Holders of the Company's common stock are entitled to one vote for each share. As of March 31, 2022, and December 31, 2021, there were 21,451,875 shares of common stock outstanding, of which 17,161,500 shares were subject to possible redemption and classified outside of permanent equity in the condensed balance sheets.

The common stock subject to possible redemption reflected on the condensed balance sheets is reconciled on the following table:

Gross proceeds from Initial Public Offering	\$ 171,615,000
Less:	
Fair value of Public Warrants at issuance	(7,894,290)
Offering costs allocated at common stock subject to possible redemption	(9,494,877)
Plus:	
Accretion on common stock subject to possible redemption	17,389,167
Common stock subject to possible redemption	<u>\$ 171,615,000</u>

**Note 7—Stockholders' Deficit**

**Preferred stock**— The Company is authorized to issue 1,000,000 shares of preferred stock, par value \$0.0001 per share, with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. As of March 31, 2022 and December 31, 2021, there were no shares of preferred stock issued or outstanding.

**Common Stock** — The Company is authorized to issue 400,000,000 shares of common stock, par value \$0.0001. Holders of the Company's common stock are entitled to one vote for each share. As of March 31, 2022, and December 31, 2021, there were 4,290,375 shares of common stock issued and outstanding, excluding 17,161,500 shares of common stock subject to possible redemption (see Note 6).

**Note 8—Warrants**

As of March 31, 2022, and December 31, 2021, the Company has 3,432,300 and 4,721,533 Public Warrants and Private Placement Warrants, respectively, outstanding.

Public Warrants may only be exercised for a whole number of shares. No fractional Public Warrants will be issued upon separation of the Units and only whole Public Warrants will trade. The Public Warrants will become exercisable commencing 30 days

**GRAF ACQUISITION CORP. IV**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

after the completion of a Business Combination; provided that the Company has an effective registration statement under the Securities Act covering the shares of common stock issuable upon exercise of the Public Warrants and a current prospectus relating to them is available (or the Company permits holders to exercise their Public Warrants on a cashless basis and such cashless exercise is exempt from registration under the Securities Act). The Company agreed that as soon as practicable, but in no event later than 20 business days after the closing of the initial Business Combination, it will use commercially reasonable efforts to file with the SEC a registration statement covering the shares of common stock issuable upon exercise of the warrants, to cause such registration statement to become effective and to maintain a current prospectus relating to those shares of common stock until the warrants expire or are redeemed, as specified in the warrant agreement. If a registration statement covering the shares of common stock issuable upon exercise of the warrants is not effective by the 60 business day after the closing of the initial Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. Notwithstanding the above, if the common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a “covered security” under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Public Warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elects, it will not be required to file or maintain in effect a registration statement, and in the event the Company does not so elect, it will use commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

The warrant has an exercise price of \$11.50 per full share and will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation. In addition, if (x) the Company issues additional shares of common stock or equity-linked securities for capital raising purposes in connection with the closing of the initial Business Combination at an issue price or effective issue price of less than \$9.20 per share of common stock (with such issue price or effective issue price to be determined in good faith by the board of directors, and in the case of any such issuance to the Sponsor or its affiliates, without taking into account any Founder Shares held by the Sponsor or such affiliates, as applicable, prior to such issuance) (the “Newly Issued Price”), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of the initial Business Combination on the date of the consummation of the initial Business Combination (net of redemptions), and (z) the volume weighted average trading price of the common stock during the 20 trading day period starting on the trading day after the day on which the Company consummates the initial Business Combination (such price, the “Market Value”) is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price described below will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price.

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days’ prior written notice of redemption; and
- if, and only if, the last sale price of the common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

If the Company calls the warrants for redemption as described above, it will have the option to require all holders that wish to exercise warrants to do so on a “cashless basis.”

The Private Placement Warrants are identical to the Public Warrants underlying the Units sold in the Initial Public Offering, except that none of the Private Placement Warrants will be redeemable by the Company so long as they are held by the initial purchasers or any of their permitted transferees.

If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company’s assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

**GRAF ACQUISITION CORP. IV**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**Note 9—Fair Value of Measurements**

The following table presents information about the Company’s assets and liabilities that are measured at fair value on a recurring basis as of March 31, 2022, and December 31, 2021, and indicates the fair value hierarchy of the valuation techniques that the Company utilized to determine such fair value.

**March 31, 2022**

<b>Description</b>	<b>Quoted Prices in Active Markets (Level 1)</b>	<b>Significant Other Observable Inputs (Level 2)</b>	<b>Significant Other Unobservable Inputs (Level 3)</b>
<b>Assets - Investments held in Trust Account:</b>			
U.S. Treasury securities	\$ 171,700,181	\$ —	\$ —
<b>Liabilities</b>			
Derivative Warrant liability- Private warrants	\$ —	\$ —	\$ 2,880,140

**December 31, 2021**

<b>Description</b>	<b>Quoted Prices in Active Markets (Level 1)</b>	<b>Significant Other Observable Inputs (Level 2)</b>	<b>Significant Other Unobservable Inputs (Level 3)</b>
<b>Assets - Investments held in Trust Account:</b>			
U.S. Treasury securities	\$ 171,656,153	\$ —	\$ —
<b>Liabilities</b>			
Derivative Warrant liability- Private warrants	\$ —	\$ —	\$ 5,571,410

Transfers to/from Levels 1, 2, and 3 are recognized at the beginning of the reporting period. There were no transfers to/from Levels 1, 2, and 3 during the three months ended March 31, 2022, or for the period from January 28, 2021 (inception) through March 31, 2021.

Level 1 assets include investments in U.S. government securities. The Company uses inputs such as actual trade data, quoted market prices from dealers or brokers, and other similar sources to determine the fair value of its investments.

The fair value of the Private Placement Warrants was measured at fair value using a Black-Scholes model. The estimated fair value of the Private Placement Warrants is determined using Level 3 inputs. Inherent in a Black-Scholes model is assumptions related to expected stock-price volatility, expected life, risk-free interest rate and dividend yield. The Company estimates the volatility of its common stock warrants based on implied volatility from the Company’s traded warrants and from historical volatility of select peer company’s common stock that matches the expected remaining life of the warrants. The risk-free interest rate is based on the U.S. Treasury zero-coupon yield curve on the grant date for a maturity similar to the expected remaining life of the warrants. The expected life of the warrants is assumed to be equivalent to their remaining contractual term. The dividend rate is based on the historical rate, which the Company anticipates remaining at zero.

**GRAF ACQUISITION CORP. IV**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

The following table provides quantitative information regarding Level 3 fair value measurements inputs at their measurement dates:

	<u>March 31, 2022</u>	<u>December 31, 2021</u>
Exercise price	\$ 11.50	\$ 11.50
Share price	\$ 9.70	\$ 9.69
Expected term (years)	5.73	5.98
Volatility	8.00 %	16.20 %
Risk-free rate	2.41 %	1.35 %
Dividend yield (per share)	0.00 %	0.00 %

For the period from January 28, 2021 (inception) through March 31, 2021, there were no derivative warrant liabilities outstanding. The change in the fair value of the derivative warrant liabilities, measured using Level 3 inputs, for the three months ended March 31, 2022, is summarized below.

Derivative warrant liability at December 31, 2021	\$ 5,571,410
Change in fair value of derivative warrant liability	(2,691,270)
Derivative warrant liability at March 31, 2022	<u>\$ 2,880,140</u>

**Note 10—Subsequent Events**

The Company evaluated subsequent events and transactions that occurred up to the date condensed financial statements were issued. On May 1, 2022, each of Anantha Ramamurti (Chief Financial Officer and Treasurer), Gus Garcia (Co-President and member of the board of directors), and Lewis Silberman (Co-President and member of the board of directors), notified the Company of their respective intentions to resign from each of their respective capacities as directors effective May 6, 2022 and officers effective May 11, 2022. Messrs. Ramamurti, Garcia, and Silberman did not advise the Company of any disagreement with the Company on any matter relating to its operations, policies, or practices. On May 6, 2022, the board of directors appointed Sterling Cross to serve as the Company's Chief Financial Officer and Treasurer, effective May 11, 2022. Additionally, the board of directors appointed Anthony Kuznik, the Company's Executive Vice President, General Counsel and Secretary, and Sabrina McKee, the Company's Executive Vice President, Strategy, to serve as non-independent members of the board of directors, effective May 6, 2022. Each of Mr. Kuznik and Ms. McKee serve as Class I directors of the Company with a term expiring at the Company's first annual meeting of stockholders. Other than the preceding sentences, the Company did not identify any subsequent events that would have required adjustment or disclosure in the condensed financial statements.

## **Item 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

*References to the “Company,” “our,” “us” or “we” refer to Graf Acquisition Corp. IV. The following discussion and analysis of the Company’s financial condition and results of operations should be read in conjunction with the unaudited condensed financial statements and the notes thereto contained elsewhere in this Form 10-Q. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.*

### **Cautionary Note Regarding Forward-Looking Statements**

*This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act. We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “continue,” or the negative of such terms or other similar expressions. Factors that might cause or contribute to such a discrepancy include, but are not limited to, those described in our other SEC filings.*

### **Overview**

We are a blank check company incorporated on January 28, 2021 as a Delaware corporation and formed for the purpose of effecting a business combination. We are an emerging growth company and, as such, we are subject to all of the risks associated with emerging growth companies.

Our sponsor is Graf Acquisition Partners IV LLC. On May 25, 2021, we consummated our IPO of 15,000,000 units, at \$10.00 per unit, generating gross proceeds of \$150.0 million, and incurring offering costs of approximately \$8.8 million, of which approximately \$5.3 million was for deferred underwriting commissions. On June 2, 2021, the underwriters partially exercised the over-allotment option and purchased the 2,161,500 additional units, generating gross proceeds of approximately \$21.6 million. We incurred additional offering costs of approximately \$1.2 million in connection with the over-allotment (of which approximately \$0.8 million was for deferred underwriting fees).

Simultaneously with the closing of the IPO, we consummated the private placement of 4,433,333 private placement warrants at a price of \$1.50 per private placement warrant to our sponsor, generating proceeds of approximately \$6.7 million. We consummated the second closing of the private placement on June 2, 2021, simultaneously with the closing of the over-allotment, resulting in the sale of an additional 288,200 private placement warrants, generating additional gross proceeds of approximately \$432,000.

Upon the closing of the IPO, the over-allotment, and the private placement, \$171.6 million (\$10.00 per unit) of the net proceeds of the sale of the units in the IPO and of the private placement warrants in the private placement were placed in the trust account maintained by Continental Stock Transfer & Trust Company, as trustee, and will be invested only in U.S. “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations, until the earlier of: (i) the completion of a business combination and (ii) the distribution of the trust account as described below.

Our management has broad discretion with respect to the specific application of the net proceeds of the IPO, the over-allotment, and the sale of the private placement warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a business combination.

## [Table of Contents](#)

If we have not consummated an initial business combination within 24 months from the closing of the IPO, or by May 25, 2023, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible, but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest (which interest shall be net of taxes payable and up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining stockholders and the board of directors, dissolve and liquidate, subject in each case to the Company's obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

### ***Liquidity and Going Concern***

As of March 31, 2022, we had approximately \$1.4 million in our operating bank account and working capital deficit of approximately \$90,000.

Our liquidity needs through March 31, 2022 were satisfied through a payment of \$25,000 from our sponsor to purchase the founder shares, the loan of approximately \$67,000 from the sponsor under a promissory note, and the proceeds from the consummation of the private placement not held in the trust account. We repaid the promissory note in full on May 26, 2021. In addition, in order to finance transaction costs in connection with a business combination, the sponsor or an affiliate of the sponsor, or certain of our officers and directors may, but are not obligated to, loan us funds, from time to time or at any time, in whatever amount they deem necessary in their sole discretion (the "working capital loans"). As of March 31, 2022, and December 31, 2021, there were no amounts outstanding under any working capital loans.

In connection with the Company's assessment of going concern considerations in accordance with Financial Accounting Standards Board's ("FASB") accounting Standards Update ("ASU") 2014-15, "Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern," management has determined that the Company may not be able to meet its obligations as they become due within one year after the date that the condensed financial statements are available to be issued. As such, management has determined that the liquidity condition raises substantial doubt about the Company's ability to continue as a going concern. As of March 31, 2022, and December 31, 2021, no adjustments have been made to the carrying amounts of assets or liabilities.

Management continues to evaluate the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of these condensed financial statements. The condensed financial statements do not include any adjustments that might result from the outcome of this uncertainty.

In February 2022, the Russian Federation and Belarus commenced a military action with the country of Ukraine. As a result of this action, various nations, including the United States, have instituted economic sanctions against the Russian Federation and Belarus. Further, the impact of this action and related sanctions on the world economy are not determinable as of the date of these condensed financial statements. The specific impact on the Company's financial condition, results of operations, and cash flows is also not determinable as of the date of these condensed financial statements.

### **Results of Operations**

Our entire activity from January 28, 2021 (inception) through March 31, 2022, was in preparation for our IPO, and since our IPO, our activity has been limited to the search for a prospective initial business combination. We will not generate any operating revenues until the closing and completion of our initial business combination. We will generate non-operating income in the form of investment income from our investments held in the trust account. We expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses.

For the three months ended March 31, 2022, we had a net income of approximately \$2.0 million which consisted of approximately \$2.7 million in non-operating gain from the change in fair value of warrant liability, and approximately \$44,000 in income from investments held in Trust Account, offset by approximately \$638,000 in general and administrative expenses, approximately \$49,000 of franchise tax expenses, and related party administrative expenses of approximately \$45,000.

## [Table of Contents](#)

For period from January 28, 2021 (inception) through March 31, 2021, we had a net loss of approximately \$36,000 which consisted of approximately \$2,000 in general and administrative expense, and approximately \$34,000 in franchise tax expenses.

### **Contractual Obligations**

We do not have any long-term debt obligations, capital lease obligations, operating lease obligations, purchase obligations or long-term liabilities at March 31, 2022.

### ***Registration and Stockholder Rights***

The holders of our founder shares, private placement warrants and warrants that may be issued upon conversion of working capital loans (and any shares of common stock issuable upon the exercise of the private placement warrants and warrants that may be issued upon conversion of working capital loans) were entitled to registration rights pursuant to a registration rights agreement signed upon the effective date of the IPO. These holders are entitled to make up to three demands, excluding short form registration demands, that the Company registered such securities for sale under the Securities Act. In addition, these holders will have “piggy-back” registration rights to include their securities in other registration statements filed by the Company. We will bear the expenses incurred in connection with the filing of any such registration statements.

### ***Underwriting Agreement***

We granted the underwriters a 45-day option from the date of the final prospectus relating to the IPO to purchase up to 2,250,000 additional units less the underwriting discounts and commissions. On June 2, 2021, the underwriters partially exercised the over-allotment option.

The underwriters were entitled to an underwriting discount of \$0.20 per unit, or \$3.4 million in the aggregate, paid upon the closing of the IPO and over-allotment. In addition, \$0.35 per unit, or approximately \$6.0 million in the aggregate will be payable to the underwriters for deferred underwriting commissions. The deferred fee will become payable to the underwriters from the amounts held in the trust account solely in the event that we complete a business combination, subject to the terms of the underwriting agreement.

### ***Administrative Services Agreement***

On May 20, 2021, we entered into an agreement that provided that, commencing on the date that the Company’s securities were first listed on the NYSE through the earlier of consummation of the initial business combination and the liquidation, the Company agreed to pay G-SPAC Management LLC, an affiliate of the sponsor, \$15,000 per month for office space, utilities, secretarial, administrative and support services provided to the Company and members of the management team. For the three months ended March 31, 2022, and for the period from January 28, 2021 (inception) through March 31, 2021, the Company incurred expenses of approximately \$45,000 and \$0, respectively, under this agreement. As of March 31, 2022, and December 31, 2021, the Company had no outstanding balance for services in connection with such agreement on the accompanying condensed balance sheets.

In addition, the sponsor, officers and directors, or any of their respective affiliates, will be reimbursed for any out-of-pocket expenses incurred in connection with activities on the Company’s behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. The audit committee will review on a quarterly basis all payments that were made by the Company to the sponsor, officers or directors, or their affiliates. Any such payments prior to an initial business combination will be made from funds held outside the trust account.

### **Critical Accounting Policies and Estimates**

This management’s discussion and analysis of our financial condition and results of operations is based on our condensed financial statements, which have been prepared in accordance with GAAP. The preparation of these unaudited condensed financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities in our condensed financial statements. On an ongoing basis, we evaluate our estimates and judgments, including those related to fair value of financial instruments and accrued expenses. We base our estimates on historical experience, known trends and events and various other factors that we believe to be reasonable under the circumstances, the results of

which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

#### ***Derivative Warrant Liability***

We do not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. The Company will evaluate its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with FASB ASC Topic 815, "Derivatives and Hedging" ("ASC 815"). The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is re-assessed at the end of each reporting period.

The private placement warrants are recognized as derivative liabilities in accordance with ASC 815. Accordingly, the Company recognizes the warrant instruments as liabilities at fair value and adjusts the carrying value of the instruments to fair value at each reporting period until they are exercised. The fair value of the private placement warrants as of March 31, 2022, and December 31, 2021 is determined using Black-Scholes option pricing model. The determination of the fair value of the warrant liability may be subject to change as more current information becomes available and accordingly the actual results could differ significantly. Derivative warrant liabilities are classified as non-current liabilities as their liquidation is not reasonably expected to require the use of current assets or require the creation of current liabilities.

#### ***Common Stock Subject to Possible Redemption***

The Company accounts for its common stock subject to possible redemption in accordance with the guidance in ASC 480. Common stock subject to mandatory redemption (if any) is classified as liability instruments and are measured at fair value. Conditionally redeemable common stock (including shares of common stock that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) is classified as temporary equity. At all other times, common stock is classified as stockholders' equity. The Company's common stock features certain redemption rights that are considered to be outside of the Company's control and subject to occurrence of uncertain future events. Accordingly, as of IPO (including exercise of the over-allotment option), 17,161,500 shares of common stock subject to possible redemption at the redemption amount were presented at redemption value as temporary equity, outside of the stockholders' deficit section of the Company's condensed balance sheets.

We recognize changes in redemption value immediately as they occur and adjust the carrying value of the common stock shares subject to possible redemption to equal the redemption value at the end of each reporting period. This method would view the end of the reporting period as if it were also the redemption date for the security. Effective with the closing of the Initial Public Offering (including exercise of the over-allotment option), the Company recognized the accretion from initial book value to redemption amount, which resulted in charges against additional paid-in capital (to the extent available) and accumulated deficit.

#### ***Net Income (Loss) Per Share of Common Stock***

The Company complies with accounting and disclosure requirements of FASB ASC Topic 260, "Earnings Per Share." Net income (loss) per common stock is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period.

The calculation of diluted net income (loss) per common stock does not consider the effect of the warrants issued in connection with the IPO (including exercise of the over-allotment option) and the private placement to purchase an aggregate of 8,153,833 shares of common stock in the calculation of diluted income (loss) per share, because their exercise is contingent upon future events and their inclusion would be anti-dilutive under the treasury stock method. As a result, diluted net income (loss) per share is the same as basic net income (loss) per share for the three months ended March 31, 2022 and for the period from January 28, 2021 (inception) through March 31, 2021. Accretion associated with the redeemable common stock is excluded from earnings per share as the redemption value approximates fair value.

#### ***Recent Accounting Standards***

Management does not believe that any recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on our condensed financial statements.

## **Off-Balance Sheet Arrangements**

As of March 31, 2022, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K.

## **JOBS Act**

The Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”) contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We qualify as an “emerging growth company” and under the JOBS Act are allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, the unaudited condensed financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an “emerging growth company,” we choose to rely on such exemptions we may not be required to, among other things, (i) provide an auditor’s attestation report on our system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor’s report providing additional information about the audit and the financial statements (auditor discussion and analysis) and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO’s compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of our IPO or until we are no longer an “emerging growth company,” whichever is earlier.

## **Appointments and Resignations**

On May 1, 2022, each of Anantha Ramamurti (Chief Financial Officer and Treasurer), Gus Garcia (Co-President and member of the board of directors), and Lewis Silberman (Co-President and member of the board of directors), notified the Company of their respective intentions to resign from each of their respective capacities as directors effective May 6, 2022 and officers effective May 11, 2022. Messrs. Ramamurti, Garcia, and Silberman did not advise the Company of any disagreement with the Company on any matter relating to its operations, policies, or practices. On May 6, 2022, the board of directors appointed Sterling Cross to serve as the Company’s Chief Financial Officer and Treasurer, effective May 11, 2022. Additionally, the board of directors appointed Anthony Kuznik, the Company’s Executive Vice President, General Counsel and Secretary, and Sabrina McKee, the Company’s Executive Vice President, Strategy, to serve as non-independent members of the board of directors, effective May 6, 2022. Each of Mr. Kuznik and Ms. McKee serve as Class I directors of the Company with a term expiring at the Company’s first annual meeting of stockholders.

## **Item 3A. Quantitative and Qualitative Disclosures about Market Risk**

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information otherwise required under this item.

## **Item 4A. Controls and Procedures.**

### ***Evaluation of Disclosure Controls and Procedures***

Under the supervision and with the participation of our management, including our principal executive officer and principal financial and accounting officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter ended March 31, 2022, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on this evaluation, our principal executive officer and principal financial officer have concluded that during the period covered by this Form 10-Q, our disclosure controls and procedures were not effective as of March 31, 2022, because of a material weakness in our internal control over financial reporting. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company’s annual or interim financial statements will not be prevented or detected on a timely basis. Specifically, the Company’s management has concluded that our control around the

[Table of Contents](#)

interpretation and accounting for certain complex financial instruments issued by the Company, and the presentation of earnings per share was not effectively designed or maintained. This material weakness resulted in the restatement of the Company's interim financial statements for the quarter ended June 30, 2021. Additionally, this material weakness could result in a misstatement of the carrying value of complex financial instruments, and related accounts and disclosures, and the presentation of earnings per share that would result in a material misstatement of the financial statements that would not be prevented or detected on a timely basis. As a result, our management performed additional analysis as deemed necessary to ensure that our financial statements were prepared in accordance with GAAP. Accordingly, management believes that the financial statements included in this Form 10-Q present fairly, in all material respects, our financial position, results of operations and cash flows of the periods presented. Management understands that the accounting standards applicable to our financial statements are complex and has since the inception of the Company benefited from the support of experienced third-party professionals with whom management has regularly consulted with respect to accounting issues. Management intends to continue to further consult with such professionals in connection with accounting matters.

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

**Changes in Internal Control over Financial Reporting**

There were no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting, as the circumstances that led to the restatement of our financial statements as noted below.

Our principal executive officer and principal financial officer performed additional accounting and financial analyses and other post-closing procedures including consulting with subject matter experts related to the accounting for certain complex features of the redeemable common stock and warrants issued by the Company, and the presentation of earnings per share. The Company's management has expended, and will continue to expend, a substantial amount of effort and resources for the remediation and improvement of our internal control over financial reporting. While we have processes to properly identify and evaluate the appropriate accounting technical pronouncements and other literature for all significant or unusual transactions, we have expanded and will continue to improve these processes to ensure that the nuances of such transactions are effectively evaluated in the context of the increasingly complex accounting standards.

**PART II – OTHER INFORMATION**

**Item 1. Legal Proceedings**

There is no material litigation, arbitration or governmental proceeding currently pending against us or any members of our management team in their capacity as such.

**Item 1A. Risk Factors**

As of the date of this Quarterly Report on Form 10-Q, there have been no material changes to the risk factors disclosed in our Form 10-K filed with the SEC on March 31, 2022, as of the date of this Quarterly Report, there have been no material changes with respect to those risk factors previously disclosed in our Registration Statement filed with the SEC. We may disclose changes to such factors or disclose additional factors from time to time in our future filings with the SEC.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

None.

**Item 3. Mine Safety Disclosures.**

Not applicable.

**Item 5. Other Information.**

None.

Name: James A. Graf  
Title: Chief Executive Officer (Principal Executive Officer)

By: /s/ Sterling Cross  
Name: Sterling Cross  
Title: Chief Financial Officer (Principal Financial and Accounting Officer)

**CERTIFICATION**  
**PURSUANT TO RULES 13a-14(a) AND 15d-14(a)**  
**UNDER THE SECURITIES EXCHANGE ACT OF 1934, AS ADOPTED PURSUANT TO**  
**SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, James A. Graf, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the three months ended March 31, 2022 of Graf Acquisition Corp. IV;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the unaudited condensed financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. [Paragraph intentionally omitted in accordance with SEC Release Nos. 34-47986 and 34-54942];
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.

Chief Financial Officer and Treasurer  
(Principal Financial Officer)

---

**CERTIFICATION PURSUANT TO  
18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO  
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of Graf Acquisition Corp. IV (the "Company") on Form 10-Q for the three months ended March 31, 2022, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, James. A Graf, Chief Executive Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, to my knowledge:

- (1) the Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
